MT = 1"

FR8975 - Acanthus Leaf & Tongue
13/16" x 5" Repeats 6 5/8" MT = 1"

CONCERNING OUR FRIEZES I

- MT indicates "Maximum Thickness" of moulding where overlay may be thicker than 13/16"
- Use backbands on pages 4,5 and 16 with friezes to add additional width, depth, and detail.
- PM595 can be added to all friezes to provide symmetry. See example on page 4.

Mon Reale® Mouldings are an opulent collection of 142 high-relief Architectural Mouldings manufactured from clear Poplar, in the U.S.A. These classically-inspired, sculptured mouldings are made from a fine grain overlay contoured to solid Poplar mouldings. They can be stained, painted, or glazed and install with standard woodworking tools. In-stock, prompt shipment.

MODILLION BLOCKS I

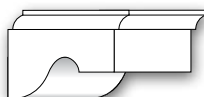

Typically, modillion blocks are placed 6" on center. Order 2 blocks per lineal ft. of moulding specified. Modillion blocks can be placed closer together in a cornice detail – order accordingly.

MB189 - sold as lineal footage
1 3/4" x 2 3/4"

MB191 - blocks are pre-cut to 2"
1 3/4" x 2 3/4" x 2"

MB192 2 1/4" x 3 1/4" x 3"
sold as 2" block with attached coved top

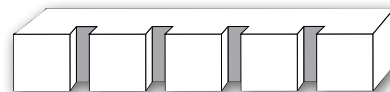

CO723 is sized to fit the cove cut on MB192 - CO723 ordered as a separate moulding.

Deco Prefinished Composite Mouldings - Contemporary & Traditional profiles that are complementary in a modern color palette offering the look & feel of real wood & metal finishes. ■ **Offering 20 profiles in 7 shapes and 6 finishes.** Deco Mouldings offer the ability to stack profiles, create chairrails and even combine colors to create dynamic, sophisticated looks. ■ **Affordability & Time Savings** - Once installed, our prefinished mouldings allow you to bypass the 4-6 stages of finishing, which can be 1/3 of the cost of moulding installation. NO post installation fumes or fine dust to clean up! No maintenance required. ■ **Precision manufacturing** creates perfect mitered joinery and consistent graining like expensive wood grains or metal finishes. Uniform lengths eliminates waste! ■ **Easy to install** with standard woodworking tools (miter saw with 44 teeth, thin kerf blade, nail gun) and skills, though easier. Installation videos, silicone adhesive and touch-up paints will be denoted at WhiteRiver.com/Deco. ■ **Eco-Friendly** Deco Mouldings are manufactured from natural fibers and 91% reprocessed recycled polystyrene. Mouldings are weather, moisture, and termite resistant. Manufactured in Canada.

ARCHITECTURAL DESIGN SERVICES

BY WHITE RIVER'S DESIGN TEAM

White River provides a wide range of Architectural Design Services (preliminary sketches & elevations, 3D drawings and build-ups in CAD) for residential and commercial projects. Our projects range from 25,000 sq. ft. interior projects to important rooms, focal points and remodels. Our staff of Master Millwork Designers have more than 100 years of combined experience in the specification of traditional millwork. We work from initial concepts, build-ups, to full estimating. We take pride in our ability to take your ideas and transform them into an interior of your dreams.

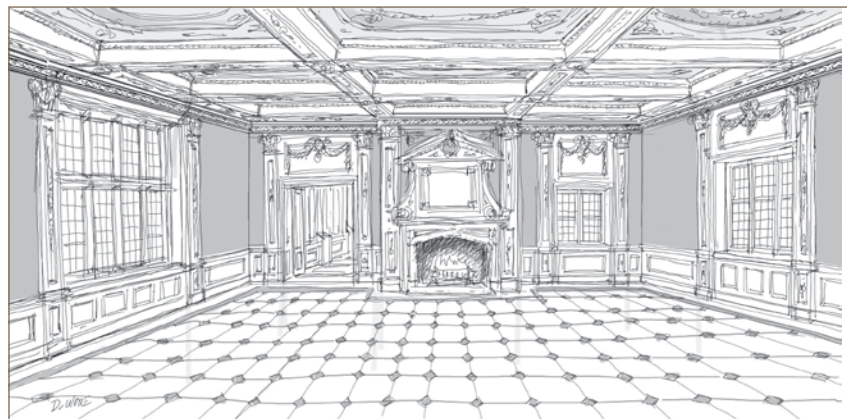

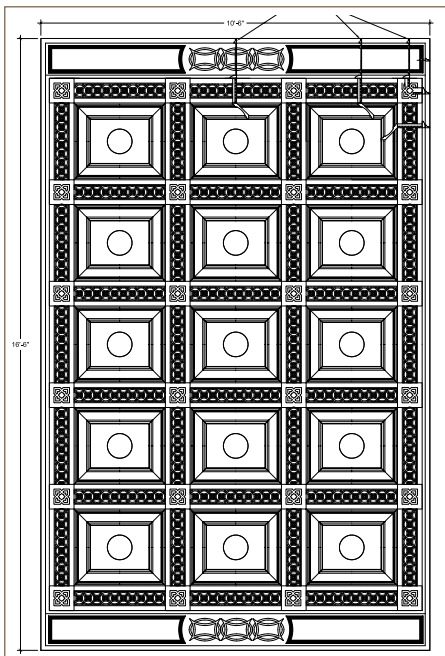

Ornate ceiling. Design Services were requested to create an ornate ceiling that was to be the jewel of this entry area. Magnificent!

"The most important part of the design process is that we listen to your dreams and expectations and when the job is finished, that you love your interior and you know you were a part of it."

Joan Johnson
Founder White River
Senior Designer & Product Development

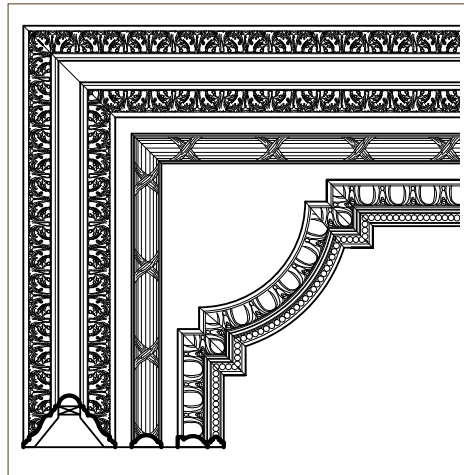

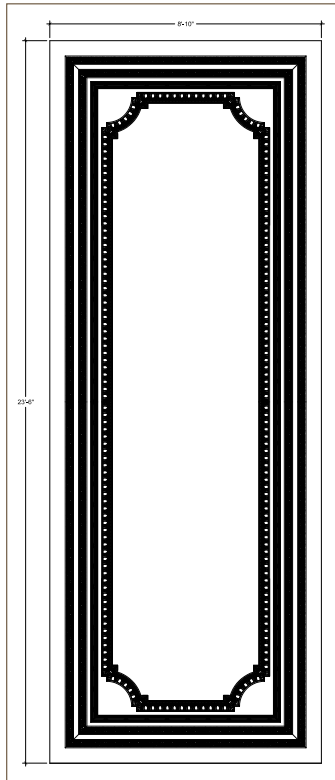

Design Services requested with these jobsite conditions

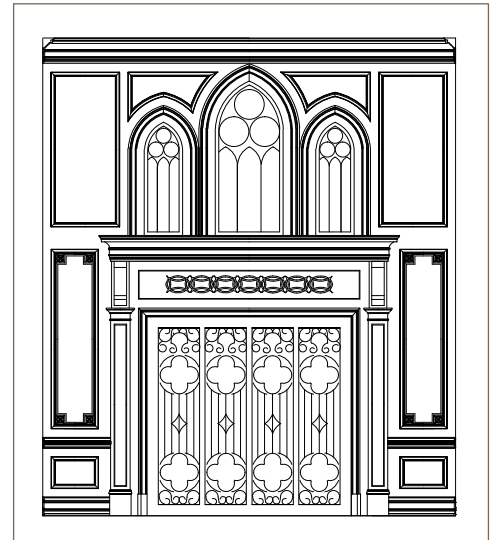

ABOVE: Sketch from photography. During the jobsite visit, our Designer takes specific photography of rooms. This allows for quick detailing of elevations in perspective for the client. Quick and loosely drawn, these incorporate walls, ceilings, columns, and stairs into one elevation.

LEFT: Coffered ceiling motif. This client requested that our Design Services create a beamed ceiling using celtic motifs and fit the design into existing framing. Wonderful!

Renderings in a variety of illustrated formats create rooms with atmosphere, depth, scale, and proportion. The next stage of the Design Process includes, but is not limited to: wall elevations, reflective ceiling plans, moulding sections, and an estimated cost per detail for each room. The scope of the millwork detail can be captured in moulding sections only or may demand full elevations where details change per wall elevation and documentation is needed.

LEFT: Panelled ceiling. With a 26' flat ceiling in the great room, Design Services created this embellished large panel with varying motifs and scale.

ABOVE: Panelled celtic door surround. This client had a lovely leaded glass entry door and window and desired celtic motifs designed in a Classical language. Exciting!

ABOVE/RIGHT: The theater room. Design Services were requested to create panelled walls & coffered ceilings in this Theater Room.

A WORD FROM THE WHITE RIVER TEAM I

"You can't get your millwork designs out of a magazine picture. And your investment in expert, professional Millwork Design will ultimately save you money while adding an immeasurably elegant dimension to your beautiful home."

"Call us and let's discuss your project. We think you will be surprised at how we can help you choose a beautiful millwork package and save you money. Call or email today – once you see our designs, you'll love the renderings that you see."

CUSTOM WORK BY WHITE RIVER

YOUR DESIGN OR OURS, MADE TO ORDER

LEFT: Custom carved filigree for cabinet doors, designed by our Design Services. Fanciful.

ABOVE: Custom, oversized corbel being handcarved by Master Carver. Corbel motif features hearts, spades, diamonds, and clubs as specified by Designer for private residential lounge.

BELOW: Handcarved ceiling medallion designed by our Design Services. The size is 4" thickness by 24" diameter. Delightful.

ABOVE: Our client was looking for a unique wood mantel. The majority of the piece had a very detailed but traditional shape. In contrast, the face was to be more delicate and organic.

ABOVE: Acanthus plume cartouche was reproduced for a New York hotel. The French motif was exacting and perfected. Profound.

ABOVE: This customer was building a new home and requested that White River reproduce the mantel from her family home. She was very pleased with the end result!

White River Hardwoods is a manufacturer of the finest architectural hardwood doors. Door specifications can be interior or exterior units, pre-hung units or slabs. Our Custom Shop specializes in domestic and exotic wood species, unique detailing, heavy embellishments, or oversized units. In reproducing European door styles, we utilize our woodcarving plant for historically designed onlays. We also specialize in radius work for doors and other applications on your jobsite.

LEFT: Fanciful pantry door built by our Custom Shop features rail and stile frame with vertical panels. The deeply carved custom woodcarvings are based on the clients' photos.

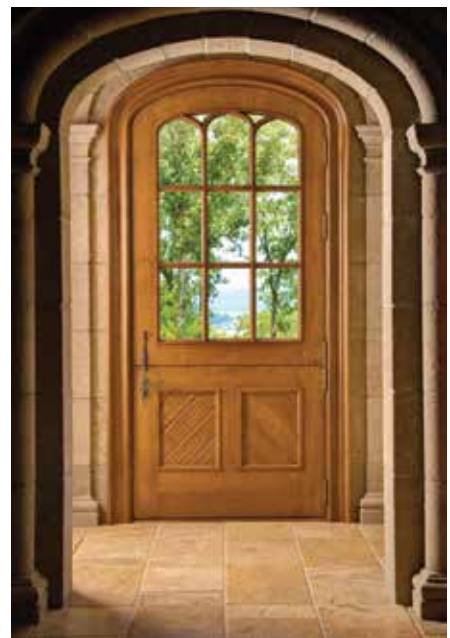

LEFT: Custom Interior Door (one of thirty units for a job) features parquet lower panel and custom wood carvings designed for each door.
 ABOVE: Two panel mouldings frame upper and lower panels, which create soft but dramatic framing.
 ABOVE BOTTOM: The bottom of the panel above with carving is all one piece with offset radius to match deeply carved scrolls.

ABOVE: The ultimate architectural element – curved beams merging with straight beams. The straight handcarved mouldings are manufactured from Cherry and curved carved mouldings manufactured from resin – and who can tell the difference? Resplendence. Grand.

LEFT: This Tudor arch cased opening features 30" panelled jamb with curved panels at the top. The very intricate details were supplied by White River's Custom Shop. Gratified.

BELOW: Entry door features quarter-sawn White Oak, true divided lights and is a true dutch door.

Products specified: Mantel - FR8954, CRV5050, CRV5230; Crown - CM8812; Pilasters - CRV5500, CRV5530, MLD5820
