Jim Mackie Distribution
Midwest Supplier

About Jim Mackie Distribution

MISSION

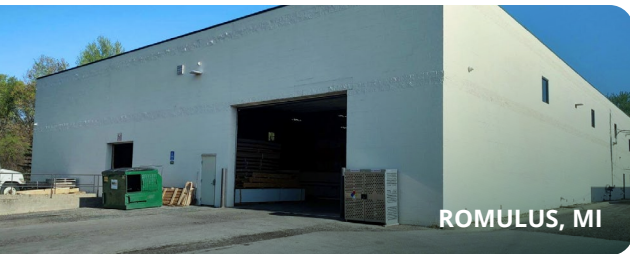

Supply quality building products to lumber dealers.

ROMULUS, MI

ELKHART, IN

ROMULUS, MI

In 1993, Jim Maicki started a sales company in a small, one room office in suburban Detroit. Jim's mission was simple:

"Supply quality building products to lumber dealers."

Over the last three decades, Jim's company has evolved from a one-man specialty distributor into a full-fledged, full-line millwork distributor. Our three fully-stocked warehouses have the capacity to supply the entire Midwest, providing fast and reliable delivery no matter the size of your order. Although Jim Mackie Distribution has had massive growth and expansion, we will never lose sight of Jim's primary focus from day one: customer service. We take pride in offering small company service with big corporate buying power, which means you get the best of both worlds when you choose to partner with us as your millwork provider.

In addition to customer service, we also believe quality of product is paramount to any successful partnership. Customer service, quality of product, and supply chain management are the keys to our growth and remain the cornerstones of our business.

We have partnerships domestically and overseas with a number of trusted mills. Over the years, we have developed stringent quality guidelines all our mills must adhere to. We regularly inspect our mills to ensure they're meeting our highest quality standards. Each item is inspected upon delivery to guarantee you get the best products in the market.

We only work with suppliers who share our values of quality, environmental responsibility, and continuous improvement. **Thank you for choosing Jim Mackie Distribution as your trusted moulding supplier. Enjoy the catalog!**
